

Customized Designed Medical Equipment Carts and Cabinets Special Procedure Rooms

Client: Allina Healthcare

AE/Designer: Allina Design

Project Overview: Allina required storage and work surfaces, along with the ability to store medical equipment carts that would hold up to rigorous disinfecting, required for infectious disease control without breaking down. MEC provided custom cabinetry designed to house MEC medical carts. The carts are made from Andure® which is a specially blended resin with a titanium alloy.

MEC Cabinets are:

- Moisture Proof
- Stain Resistant
- Chemical Resistant
- Limited Lifetime Warranty
- 100% recyclable
- Made from 30% recycled material
- Impact Resistant
- Solid Polymer (cabinets)
- Solid Resin (carts)
